

HPV Vaccination is Cancer Prevention!

Only 1 in 2 CA teens are up-to-date with their HPV vaccination

This means over **one million** are **unprotected against HPV cancers**

Can **your health system** reach the **goal of 80%** HPV vaccination rate?

CALIFORNIA HPV VACCINATION ROUNDTABLE
Working to prevent HPV cancers

*HPV-attributable cancers include throat, cervical, vaginal, vulvar, penile, and anal cancers
